FAQ topics

Q I'm logged in the GUI but can't see the grids.

A You are trying to use the FQDN while the application is set to using the IP address or the other way around. Run `yce_setup.pl` and set DNS resolved to either yes/no, depending on your environment.

Q After logging in nothing is shown at all.

A Make sure you are allowed to access the NetYCE system using either TCP port 80/443 and port 8080. See: [YCE Connection matrix](#)

Q Where do I find the latest patches and licenses?

A [Patches and licenses](#)

Q Can't access the GUI, showing `{{ version }}`

A Make sure you've run '`net_setup.pl`' as root, '`yce_setup.pl`' as 'yce'-user.

1. verify all processes are running using 'go ps'
2. if mysql is not running, execute: `mysql_repair.sh` as 'yce'-user
3. execute 'go up' for the remaining processes
4. Make sure all necessary ports are reachable, [connection matrix](#)

```
$ go ps
UID      PID     PPID    %MEM   %CPU   START      FNAME      CMD
